

The d.Blue modules are currently available in 40 - 130 watt panels. They all feature a junction box, a heavy-duty box-style anodized aluminum frame; and an industry high 25-year power output warranty.

GP-PSK-130 130W Portable Folding Solar Panel Kit with 10 Amp Solar Controller, Great for RV and Camping, Includes Controller, Battery Clamps, SAE Solar Plug Adapter, Ring Terminal Connectors. ...

130 Watt solar panels are great for a myriad of residential and commercial applications. Solar panel output is measured in watts which indicates the amount of power that the solar panel will produce ...

Built for uneven and curved surfaces. No custom mounting needed. This versatile panel can be used in non-permanent or permanent applications. Easily slides into tight spaces for storage. Primarily used ...

The Solarday PX36 Square-130 panel delivers 130W. Maximum current and voltage are 7.3A and 17.8V respectively. As for physical dimensions, the panel is 1029mm tall and 1005mm, wide, and weighs 15kg.

Featuring a 16-busbar solar cell layout, anti-reflective tempered glass, and an ultra-durable frame, this panel performs efficiently even in low-light conditions.

The MEGA 130 SLIM is an off-grid panel that's lightweight, compact, and durable. From vans to boats, keep your adventure charged no matter where you go.

Built for uneven and curved surfaces. No custom mounting ...

I installed the SunGoldPower 450W panels on my home rooftop last month, and I'm really happy with the performance so far. The build quality feels solid and durable, and the monocrystalline cells are ...

Kyocera's advanced cell processing technology and automated production facilities produce a highly efficient multi crystal photovoltaic module. Equipped with plug-in multi-contact (MC) connectors.

The RICH SOLAR MEGA 130 SLIM is a compact, high-efficiency 12V solar panel designed for space-limited installations. Using N-Type TOPCon monocrystalline cells with up to 25.1% efficiency, this ...
