

# 5MW Data Center Battery Cabinet for Field Operations

Our systems are designed to work together, simplifying installation, improving visibility, and delivering the performance and reliability your operations require.

Each set of 12 battery clusters connects to a bus cabinet, forming a standard 5MWh DC compartment energy storage system. Externally, a 2500kW PCS connects (two standard compartments are ...

Product features(Containerized Energy Storage System): Low energy consumption, long life, high consistency, high stability. Application scenarios: photovoltaic power plants, wind power stations, ...

Available in 2.5 MW / 10 MWh and 5 MW / 20 MWh configurations. Proven rack-level battery management with String PCS optimizes overall system performance and capacity. Paired modular ...

Housed in a prefabricated 40ft container, the system integrates 2.5MW power conversion, 5MWh of high-voltage LFP batteries, a step-up MV transformer, and full monitoring and safety infrastructure.

Pre-installed wiring harnesses and integrated battery cabinets enable commissioning within hours. Save time and costs on logistics and site prep with a fully integrated 20ft containerized ...

We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end installations. The battery container is compatible with the leading global inverter manufacturers ...

Our solutions range up to 38 kV with a single cabinet stand-alone capacity of 5 MWh. Full system support in excess of 2,000 MWh.

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...
