

Where can I find a list of approved inverters?

Search the Clean Energy Council's list of approved inverters. This list contains over 1,800 inverter and Power Conversion Equipment (PCE) models that have been approved to meet relevant Australian and international standards, as well as other checks to make sure inverters are safe for Australian consumers.

Are non-compliant Inverter models still eligible for STCs?

Non-compliant inverter models have been removed from the approved products list. Check the approved product list to ensure your inverter models are still eligible for small-scale technology certificates (STCs).

Search the Clean Energy Council's list of approved inverters.

What is a PV module list?

The PV Module List contains information such as PTC value, reported nameplate ratings, and temperature coefficients. Grid support inverters are inverters that include advanced functionality and communication abilities and are commonly known as "smart inverters". The Grid Support Inverter List includes information for solar and battery inverters.

What is a solar equipment list?

The Energy Commission's Solar Equipment Lists include PV modules, inverters (including smart inverters), meters, battery and energy storage systems, and related equipment. The Solar Equipment Lists are updated three times a month, typically on the 1st, 11th, and 21st of the month, or the first business day thereafter.

A global solar inverter directory with advanced filters that lets you review and compare inverters. Pictures, data sheets, PDFs and certifications are shown.
