

What is the difference between IP55 and IP56 enclosures?

Enclosures with an IP55 rating are designed to handle limited dust ingress and water jets, perfect for standard electrical applications. Meanwhile, IP56 enclosures provide robust resistance to strong water exposure and partial dust ingress, ensuring durability in demanding conditions.

What materials do IP enclosures offer?

Steel. Stainless Steel. Aluminium. IP Enclosures offers a 5-year warranty across the full range of electrical enclosures, electrical cabinets and data racks. Tested to international standards and trusted in demanding applications, this warranty reinforces our commitment to long-term protection and reliability.

Where can I buy IP enclosures in Australia?

Contact your local State Distributor/Stockist for assistance with product selection, technical support, availability, quotes and ordering. IP Enclosures are also available from local Australia-wide wholesalers including: Lawrence & Hanson, Rexel, Blackwoods, Tradezone, Metal Manufacturers Electrical Merchandising, AWM, D&W, Haymans, TLE and Cetnaj.

Are IP enclosures UL compliant?
