

Bern Photovoltaic IP66 Battery Cabinet Small

These cabinets are UV-resistant aging, corrosion-resistant, acid and alkali resistant, wind-resistant, waterproof, and shock-resistant, with a more robust and durable structure.

These three parts form a microgrid, using photovoltaic power generation to store electricity in the energy storage battery. When needed, the energy storage battery supplies the ...

Battery enclosure boxes also feature locking mechanisms that protect unauthorized people against possible electrical dangers if they happen to be tampering with your equipment. Our battery ...

These cabinets are an optimal choice for smaller systems. The size and construction of the PEW cabinet makes it well suited for secure installation in tight spaces and residential properties.

Constructed with long-lasting materials and sophisticated technologies inside, the storage cabinet reliably works even under extreme environmental conditions. Thus, this product would turn out very ...

Intelligent BMS, providing complete protection. Support high discharge power, IP55, natural cooling, wide temperature range: -20°C to 55°C. Modular design, easy to expand. Suited to residential and ...

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, ...

Designed for residential and small commercial systems, this cabinet accommodates both lithium-ion and lead-acid batteries with built-in separation to prevent cross-contamination and ensure safety.

We provide different design solutions for large, medium and small customers. We continue to develop and improve technology to bring a better experience to our users.
