

Awendio Solaris says it plans to invest about CAD 1 billion (\$726.7 million) in a vertically integrated solar cell and module manufacturing facility and research center in Montreal, Quebec,...

Under Dr. Qu's leadership, we have grown into one of the world's largest solar photovoltaic products and energy solutions providers, as well as one of the largest solar power plant developers globally.

This project set out to build a new solar module with higher density cell technology, which allowed a full cell to be split into 6 smaller cells through laser technology and generated higher efficiency modules ...

In a landmark announcement for North America's renewable energy sector, UK-based manufacturer Awendio Solaris has unveiled plans to invest approximately CAD 1 billion (\$726.7 ...

Canadian Solar's Low Carbon modules enable customers to achieve two goals at once - deploying one of the industry's most efficient, high-power modules while significantly reducing the ...

Awendio, a UK start-up, plans to invest CAD 1 billion (USD 725m/EUR 619m) to build a gigawatt-level and renewables-powered solar cell and module factory, along with a global research ...

Search all the ongoing (work-in-progress) solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Canada with our comprehensive online database.

Elected officials in Medicine Hat, Alta., approved moving ahead with a 75-megawatt solar farm in a landmark decision Monday evening.

"The Government of Canada is proud to partner with George Gordon First Nation and industry partners on this Indigenous-owned solar energy project. This will add more clean power to ...

Worley Canada Construction is partnering with George Gordon Developments and Wicehtowak Solar Inc. to deliver a 32MW solar project -- Canada's largest 100% Indigenous-owned ...
