

Customization Process for 1500V Communication Power Supply Cabinets for Highways

What is a national highways Type 600 cabinet?

The National Highways Type 600 Cabinet is equipped with racking, power supply distribution and communications cable termination, designed to provide adequate conditions, including a temperature-controlled environment, to ensure the correct operation of the roadside communications equipment installed inside.

What equipment should be installed in a power supply cabinet?

Distributive and protective devices shall be installed in power supply cabinets as described in Appendix 15/1. The Contractor shall supply and install enclosures, termination equipment and all fixings in optical fibre cabinets as described in Appendix 15/1. (05/01) Cabinets type 600 shall be installed as shown on HCD Drawing Number MCX 0830.

Is the series 1500 motorway communications appropriate to Wales?

(02/03) The Series 1500 Motorway Communications may not be appropriate to Wales. Additional and substitute specifications requirements can be obtained from The Welsh Assembly Government, Transport Directorate, Cathays Park, Cardiff, CF10 3NQ. Motorway communications installations shall comply with this Series.

How long do national highways cabinets last?

Manufactured in Stainless Steel and under the Ritherdon 25-year guarantee, providing peace of mind for almost all the cabinets' minimum service life of 30 years. National Highways enclosures are supplied without keys as standard. Please contact your Scheme Designer for further information and supply details.
