

You should really read up on proper National Electric Code lightning protection for outdoor antennas. Not hard to do, but it's much easier to do correctly if you plan for it before installation.

I have had a DPD ADS-B vertical for a couple years. It lives in the attic, as it did in my last home. It seems to work very well and I have had no problems.

Tuned for ATCS Base Channel: Each antenna is designed to be used for railroad ATCS (Advanced Train Control System) reception, using an application such as ATCS Monitor, and is specifically ...

Enclosed Elements: The actual antenna elements and feed point are sealed inside a UV resistant plastic radome. No need to worry about corrosion on the elements with this design. This design also helps ...

"I'm the SLE and radio tech on the M&NJ Railroad in southeastern NY. I purchased the DPD product for our base station antenna, and i'm pleased with it's performance. The antenna analyzer makes it a ...

I don't have the DPD GMRS antenna, but I do have a DPD aviation Omni X antenna and a DPD ADSB antenna. They are very well built and I have never had any problems with either one.

As 5G drives up the antenna count in base stations and our spectrum becomes ever more congested, DPD has emerged as a key technology to allow for the development of efficient, cost-effective, and ...

Texas Instruments (TI) has developed a solution that combines adaptive digital pre-distortion (DPD) with crest factor reduction (CFR) to address these issues.

Ready Made: There's no assembly necessary, or extra mounting parts needed.

For GMRS use, you would want to have the post much closer to the house to keep feedline loss to a minimum. Since the GMRS antennas are so lightweight, they would not be too ...

Just wondering if anyone has used the DPD Productions 700 MHz UHF vertical outdoor base antenna 769-775 mhz? If so, how do you like it? I'm trying to...

igned for reliability and simplicity With its advanced features and robust design, the field-proven DAMM MultiTech outdoor base station BS422 offers steadfast.

This antenna can improve performance on any radio that receives the NOAA Weather Station Broadcasts, and

has an external antenna input. Note: This antenna can be used with the Midland ...
