

15MWp of Solar PV with a minimum of 15MWh (1h) of Battery Storage for the Linden Isolated System, 8MWp of Solar PV with a minimum of 8MWh (1h) of Battery Storage for the Essequibo Coast Isolated ...

Guyana's solar capabilities are set to receive a significant boost with the signing of a US \$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese ...

Guyana Power and Light Inc. (GPL) is implementing the Guyana Utility-Scale Solar Photovoltaic Program (GUYSOL) as part of its commitment to a sustainable energy future.

In a significant step towards advancing solar power in Guyana, an 8-megawatt solar PV farm - the largest of its kind - will be constructed in the mining town of Linden in Region 10 (Upper ...

Our solar panel layout tool and PV design software make it easy for you to plan and optimize your solar panel installation. With advanced features and a user-friendly interface, you can ...

Guyana is set to significantly expand its renewable energy infrastructure with an ambitious plan to install 21 new solar photovoltaic (PV) mini-grids across the country in 2026.

Investing in a Guyana solar factory? This guide compares the government-led hinterland market with the urban C&I sector to inform your business strategy.

Work is advancing rapidly on the mega solar farm at Onderneeming, Region Two with the contractor aiming to complete the project ahead of schedule.

The project will result in the installation of photovoltaic systems for 42 homes in the community, a joinery project, garden project, solar freezer for a village shope, and a cassava processing unit.
