

# High-voltage cabine smart pv-ess integrated cabinet for drone stations

High-voltage 215kWh outdoor battery cabinet with built-in cooling, fire protection & monitoring. Ideal for microgrids, solar-diesel hybrid systems & EV charging stations. Pre-installed & easy to deploy.

Greensun can provide industrial and commercial users with a complete solution of outdoor integrated PV& energy storage system. It can be widely used in scenarios such as charging stations, factories, ...

ESS and D.G., smart air-cooled heat dissipation, single cabinet capacity of 215kWh. Suitable for industrial and commercial scenarios, which supports functions like timed schedu002uling, peak ...

All-in-one cabinet design, Inverter, Charger, Wiring Control System and batteries are all integrated. Stackable batteries design from 3KW and more --Cabinet's extension without limitation.

Users can connect the battery pack via Bluetooth, which allows visualizing all-important battery information such as voltage, current, temperature, SOC, SOH, errors, etc.

High-density liquid-cooled ESS cabinet with modular design, ensuring stable performance, safety, and efficient installation. All-in-one PV+ESS cabinet integrating inverter, HVAC, and FSS, featuring ...

ESS and D.G., smart air-cooled heat dissipation, single cabinet capacity of ...

The cabinet incorporates multi-level protection mechanisms, including fault isolation and fire-resistant materials, to ensure operational safety. Its modular design allows flexible capacity expansion from ...

Integrated PV and storage system with super wide PV input voltage; Small footprint and IP54 protecting grade for outdoor installation. Safe & Reliable High-performance battery cell, meet IEC/UL/GB ...

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four diferent capacity options based on diferent cell compositions, 200kWh, ...

o Adopts high-quality lithium iron phosphate (LiFePO4) battery cells to ensure system safety. o Complies with relevant design standards including IEC61000-6-2/4, IEC62619, IEC 62109-1/2, and UN38.3.
