

Highway User Cabinet with Constant Temperature and Humidity

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

The six-model lineup includes 105- and 206-liter models available in four temperature (humidity) ranges and two sizes. All models support a single phase power...

High performance and reliability come in a compact package, for a wide range of temperature/humidity testing needs. Continuous improvement in the design of constant-temperature (and humidity) ...

Designed to meet the demanding requirements for precise humidity and stability, Advanced engineered design incorporates the latest in cabinet, refrigeration, temperature control and monitoring features.

Temperature and humidity control system: 7-inch touch screen, the system has the functions of temperature control, humidity control, timing and over-temperature and over-humidity alarm; It is ...

Whether your testing is for R&D, shelf life, accelerated aging or steady-state testing, our constant climate chambers provide a stable, temperature/humidity conditioned environment for worry-free ...

Explore how temp and humidity-controlled cabinets ensure automotive parts" reliability through precise environmental chamber testing.

A low-pressure water vapor generator controls humidity and allows for greater temperature regulation than humidity produced through steam generation. All cabinets are designed for reliable performance ...

Climateest Symor™; Temperature Humidity Chamber capacity ranges from 50L to 1000L, Temperature Range: 0°C to +100°C. Humidity range: max.20% to 98% RH. We also provide customized chambers ...

Constant climate chambers are available in different sizes and with different temperature and humidity ranges. Before purchasing, you need to consider in detail the applications for which you need the unit.
