

**KEY BENEFITS** Extensive Cycle Life: than longer life than "lead acid battery/ Cold Temperature Performance Robust Brass Terminal an electrical Heat Resistance mechanical Outstanding cold ...

After a year of product research and testing Poweroad have released Lithium battery. ~ Long lifespan, can serve for 5-8 years when operated properly ~ High...

**DESCRIPTION** After a year of product research and testing Poweroad have released Lithium battery. ~ Long lifespan, can serve for 5-8 years when operated properly ~ High effective LiFePO4 cell ...

Poweroad's lithium motorcycle batteries are built to last, offering an impressive lifespan in comparison to traditional alternatives. The advanced battery management system ensures optimal ...

Here's a long-term review of the Poweroad Lithium motorcycle battery in the long and the short term.

**POWEROAD** Lithium Iron Phosphate Batteries (LiFePO4), offer less energy density than other types of Lithium-Ion batteries, but are more chemically stable and not as susceptible to thermal overrun that ...

Poweroad PLFP-14BL Lithium ION 280CCA 8-16Ah Battery: Lithium ION Battery with Long Life, High Discharge, Cold Performance, and Safety Features.

Long cycle life: 10 times of Lead-acid battery's cycle life. More usable capacity: up to 100% usable energy. Fast charging: 10 times faster than Lead-acid battery. Easy installation: drop-in replacement ...

They can be charged faster than lead-acid batteries, so even after a short period of inactivity, they can be fully charged after a short ride. Also, the self-discharge level is quite low.

**DESCRIPTION** After a year of product research and testing Poweroad have ...
