

A key feature is the advanced liquid cooling system, which precisely regulates battery temperature, ensures even heat distribution, and enhances overall system performance and longevity.

Huawei FusionSolar is proud to introduce the industry's first C&I ESS that uses novel smart air and liquid cooling systems, along with advanced safety, thermal management, and power ...

This advanced energy storage system with hybrid cooling brings a revolution in the energy sector. The battery is designed for commercial and industrial applications, combining safety, ...

Huawei's LUNA2000-215kWh is a next-generation C&I (Commercial & Industrial) hybrid cooling energy storage solution, combining liquid and natural air cooling to maintain maximum efficiency -- even ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

The focus is clearly on safety and efficiency - including for the new, hybrid-cooled Luna2000-215kWh battery storage system for C&I. It has been awarded the highest safety certificate ...

LUNA2000-215 Series are innovating on the thermal control side with an intelligent hybrid cooling architecture. It's all about optimizing temperature, cutting energy use, and making your energy ...

Huawei has recently introduced the industry's first commercial new smart Hybrid cooling energy storage solution in Europe. It comes with several benefits and offers a circulation efficiency of ...

This is where Huawei BESS (Battery Energy Storage System) becomes a game-changer. Designed for commercial and utility-scale applications, this innovative solution addresses the core pain points of ...
