

Latest news on downgraded photovoltaic panels

Each quarter, the National Renewable Energy Laboratory conducts the Quarterly Solar Industry Update, a presentation of technical trends within the solar industry.

OPIS analyst Hanwei Wu tells pv magazine that module producers currently have limited ability to raise panel final prices, which is accelerating efforts to reduce silver use across all mainstream cell ...

Check out our selection of solar energy news from all over the globe. All the top recent events in solar thermal and photovoltaic market. The latest research, innovative technologies, industry trends and ...

Latest solar power news from Europe, Latin America, Sub-Saharan Africa, APAC, MENA and more. Stay updated on solar PV, solar energy, policy & projects.

A new study reveals key innovations that contributed to the rapid decline of solar energy systems, showing that many of the most significant technological advances came from outside the solar ...

News from the photovoltaic and storage industry: market trends, technological advancements, expert commentary, and more.

BMO Capital downgrades First Solar (FSLR, Financial) from Outperform to Market Perform, citing competitive pressures from Tesla's solar initiatives. First Solar remains a leader in thin-film solar technology ...

Delays in bringing these solar projects into operation have been trending down in recent months. Despite the relatively high number of projects reporting delays in 2024, that year was a record year for U.S. ...

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

Photovoltaic (PV) solar accounted for 56% of all new electricity-generating capacity additions in the first half of 2025, remaining the dominant form of new electricity-generating capacity in the US.
