

Can a solar roof be integrated with a planum tile?

Our Solar tile combines perfectly with our Planum ceramic tile, so the system will be fully integrated with the roof. Planum Solar tiles are made from premium mono crystalline cells and the glass technology that surrounds them is very sturdy and durable in extreme weather conditions.

What is a GoodWe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

What is a combined solar roof tile and a battery solution?

The combined solar roof tiles and a battery solution offers an easy-to-use monitoring system so you can track your solar roof system's performance, monitor the amount of energy it stores and how much you're saving on your energy bill.

Discover Onyx Solar's new walkable PV tiles. These durable, anti-slip solar panels generate clean energy on rooftops, sidewalks, and patios--perfect for dense urban environments.

The Sunshine Series is made up of extra tough solar roof tiles with integrated photovoltaic cells, compatible with normal roof shingles, easy to install.
