

Available in a variety of capacity and design combinations, the Series is ideal for creating a "best match" system for your air conditioning requirements. Inverter-based units promise industry-leading quiet ...

We've combined advanced inverter technologies with cutting-edge electronics and mechanical technologies to achieve a synergistic effect that enables improvements in heating/cooling ...

During this phase, MESS prepares engineering package which includes the technical specifications, design briefs and calculations, basic engineering and detailed engineering drawings.

Enphase IQ 7-Based M-Series Microinverters M215 and M250 The new Enphase M215TM and M250TM Microinverters on IQ 7TM platform allow easy system expansion of 240 VAC VAC M-Series PV ...

Suitable for medium to large buildings that demand high performance with optimum efficiency, our City Multi VRF range can run numerous indoor units connected to one outdoor unit.

Rectifier / inverter system cabinet of reduced height, populated with inverter modules, "EUE" electronic bypass switch and manual bypass, together with rectifier modules.

Stylishly designed with a slim body to fit any décor, this whisper-quiet unit can be easily mounted low on a wall, or partially recessed, making the ductless Floor-mounted Indoor Unit an energy-efficient, all ...

The document provides an overview of various split-type air conditioners, highlighting models from the M-Series and P-Series, including specifications for inverter and fixed-speed types.
