Yes, As a professional solar system manufacturer, we can provide customer-made service with OEM and

on-site installation comprehensive support, and after-sales services.

Simply put, modular homes have sections that are built in a factory, rather than being fully built on a home site. These parts are then transported to the site and assembled by a builder.

In building, modular means relating to the construction of buildings in parts called modules. They ended up buying a prebuilt modular home on a two-acre lot.

Modular construction is a process in which a building is constructed off-site, under controlled plant conditions, then assembled on location. But why choose modular? Support the industry's efforts to ...
