

Our nickel-zinc batteries are real-world trusted across industries -- supplying safe, uninterruptible power in a design that's not only green but recyclable.

The ZincFive UPS Battery Cabinet is the world's first NiZn (Nickel-Zinc) BESS (Battery Energy Storage Solution) product with backward and forward compatibility with megawatt class UPS inverters.

Can easily ship fully populated and assembled cabinets by highway, overseas, or by air! Manufactured using four and five times more abundant materials than lithium, while using less water and energy for ...

The ZincFive UPS Battery Cabinet is the world's first NiZn (Nickel-Zinc) BESS (Battery Energy Storage Solution) product with backward and forward compatibility with megawatt class UPS inverters. Alpine ...

The EV-UTL has the combination of superior power density, safety, sustainability, reliability, and low cost of ownership required by next generation AC peak shave applications.

Featuring ZincFive's 80Ah high-rate battery, the BC 2 was created for data centers and enterprises who require a safe, reliable and sustainable solution. A robust cabinet, having passed a seismic shake ...

The new nickel-zinc (NiZn) battery cabinet provides support for high-intensity AI pulses while also offering traditional IT backup within a compact footprint.

ABB offers nickel-zinc battery cabinet storage to use with our UPS systems to protect vital data with safe, reliable power. Industry-leading safety in a robust cabinet and easy conduit landing ...

ZincFive has been promoting nickel-zinc batteries for more than ten years and recently claimed more than 1GW worth of deployments. The company says its nickel-zinc batteries offer a ...
