

With PV module capacity ramping up, glass suppliers have been investing in new solar glass production capacity. As in India and China, new facilities are popping up in North America, with ...

The glass produced in these plants is exclusively supplied to First Solar and will bring the total of lines dedicated to First Solar production to five. NSG Group continues to consider expanding capacity for ...

To meet the growing global demand for solar panels, specifically First Solar, NSG Group started operation of the second dedicated float line for solar glass in Vietnam in January 2020, and a ...

By forming a conductive oxide layer during the glass's passage through the float line, the process enables high-volume, cost-effective production of coated glass. This investment not only ...

First Solar and NSG share a long-standing strategic partnership. Manufactured with the online coating technology, in which a conductive oxide on the glass surface is formed during its ...

Architectural glass specialist NSG Group has started production of advanced solar glass at its renovated facility in Ohio. This new step strengthens the strategic collaboration with First Solar, ...

The build is powered by more than 5,000 thin film Series 7 solar modules manufactured by First Solar using NSG Group's solar energy glass products. NSG Group has several solar energy ...

Glass supplier company NSC Group has opened a solar glass production line to support CdTe thin-film PV manufacturer First Solar.

With the expanded supply capability for VA products, such as solar glass and other products, NSG Group intends to drive its growth strategy while supporting the expansion of ...

The NSG Group offers a range of specialised glass and coated glass products used in all of the leading solar energy technologies, including thin film photovoltaics, crystalline silicon photovoltaics, ...
