

ELECTRICAL PARAMETERS AT NOCT ... \* For Nextracker installations, maximum static load please take compatibility approve letter between JA Solar and Nextracker for reference.

High Power Output: Delivers up to 585W, suitable for large-scale energy needs. N-Type Cell Technology: Offers higher efficiency and better performance in low-light conditions. Bifacial ...

The half-cell configuration with multi-busbar PERC cells delivers higher power output, better temperature performance, reduced shading, lower hot spot risk, and increased mechanical load tolerance.

Assembled with 11BB PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading effect on the ...

The document provides specifications for the JASOLAR 585W JAM72S30 LR solar panel, highlighting its premium cell technology and mechanical parameters. It includes electrical ...

JAM78D30 JA SOLAR PANEL 585W JAM78D30 Series bifacial modules are assembled with 11BB PERCIUM cells in half cut configuration with glass on the front and back.

Detailed profile including pictures, certification details and manufacturer PDF.

Electrical Characteristics. Max. Power Voltage. Max. Power Current.

The panel's robust structure and better mechanical loading tolerance make it ideal for both residential and commercial solar installations. It features 144 monocrystalline cells, a front glass of 3.2mm ...

Measurement tolerance at STC:  $P_{max} \pm 3\%$ ,  $V_{oc} \pm 3\%$  and  $I_{sc} \pm 4\%$ . JAM72S30-565/LR/1500V JAM72S30-570/LR/1500V. JAM72S30-575/LR/1500V. JAM72S30- JAM72S30- JAM72S30- ...
