

Our PlusICE range of PCM solutions and associated products cover a wide range of applications between -100°C (-148°F) and +885°C (+1,625°F) and are available either as the standard PCM ...

Our technology engages bio-based phase change materials, enabling us to craft highly efficient and eco-friendly Thermal Batteries. PhaseStor, with over 35 years of unwavering dedication, has been at the ...

Fusion Phase Technologies is a company at the forefront of energy storage innovation, specializing in advanced phase change materials (PCMs) used in its ...

Phase Change Solutions is a global leader in temperature control and energy-efficient solutions, using phase change materials that stabilize temperatures across a wide range of applications.

The top 10 companies in advanced phase change materials are at the forefront of this transformation, developing cutting-edge PCM technologies with a wide range of applications across various industries.

In this blog, we profile the Top 10 Companies in the Phase Change Material Industry --innovators driving material science advancements across organic, inorganic, and bio-based PCM ...

Introducing PhaseStor Thermal Storage Batteries, the innovative solution at the forefront of energy storage technology. As pioneers in the field, PhaseStor leads the way in utilizing bio-based Phase ...

Meta Description: Discover how phase change energy storage devices optimize energy efficiency, reduce costs, and support sustainable solutions in renewable energy, manufacturing, and more. ...

Explore Phase Change Energy Solutions" in-depth company profile, including funding details, key investors, leadership, and competitors.

Let's face it - storing energy efficiently has always been the holy grail of renewable tech. Enter phase change energy storage (PCES) brands, the unsung heroes quietly transforming how we ...
