

Saudi Arabia earthquake resistant building materials market size was valued at USD 511.7 Million in 2025, and is expected to grow at a CAGR of 5.04% during 2026-2034.

At CleanTech, we've developed advanced solar battery storage solutions that help integrate solar energy with battery storage, providing you with a reliable and sustainable source of electricity around ...

We offer a full range of outdoor electrical enclosures that are specifically designed and certified to withstand harsh environmental conditions and provide full protection to your equipment.

Earthquake resistant building materials are specifically engineered to enhance structural stability and withstand seismic forces. They include reinforced concrete, steel structures, composites, ...

Leading companies are investing in AI-powered R&D to innovate new materials that offer enhanced durability against seismic activity. AI supports supply chain optimization, ensuring timely availability ...

These cabinets are designed to safely store and charge lithium-ion batteries while minimizing fire and chemical hazards. A well-built cabinet provides thermal isolation, fire protection, and structured ...

What is an outdoor type 3 power cabinet?With durable construction the Outdoor Type 3 power cabinet incorporates tailored thermal systems (fan/filters, air conditioners, Heat exchangers, hybrids and ...

The Factory is a Saudi Aramco approved facility for several products including solar power systems, LED lights, Metal and FG enclosures and junction boxes. Our enclosures and junction boxes are ...

As a recognised outdoor smart surveillance box with solar supplier in Saudi Arabia, we provide tested solar-powered solutions for city, industrial, and security applications.
