

The 3S LIFT Ladder Hoist System is a portable solution for lifting heavy & oversized materials, like CMU/Ballast Block and Solar Panels/Modules, vertically to the rooftop hands-free.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

Installing solar photovoltaic (PV) panels isn't just about positioning modules on rooftops. The hoisting process directly impacts safety, project timelines, and long-term system performance.

The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder.

GEDA Solarlift is a reliable device on every construction site to transport and assemble solar panels and photovoltaic systems securely. The solarlift also comes with an extra post that supports the ladder ...

At The Hoist People, we offer flexible hire options across our full range of solar lifting hoists. All equipment is supplied fully serviced, safety-checked, and installed by our experienced team.

Fast and easy assembly solar lift for lifting solar panels in a safe and comfortable way. It also helps to avoid the possible crane rental costs or public way cuts.

A module hoist, also known as a PV panel hoist or material hoist, is a mechanical device designed to lift and transport PV panels to elevated areas like roofs or scaffolding.

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

Looking for a safe and efficient way to move solar panels onto a roof? Learn how RGC's new Platform Hoists improve solar installation safety, speed, and ROI for contractors and roofers.
