

Explore the diagram and maps of the solar system, showing the orbits, sizes and distances of the planets, dwarf planets, moon and asteroid belt. Learn about the s...

To better understand the layout of our solar system, it is helpful to have a full solar system diagram. This diagram shows the sun at the center, with the ...

Our home planet, the third planet from the Sun. Earth is the only planet in the Solar System known to support life. This is because we ...

NASA's real-time science encyclopedia of deep space exploration. Our scientists and far-ranging robots explore the wild frontiers of our solar system.

The order and arrangement of the planets and other bodies in our solar system is due to the way the solar system formed. Nearest to the Sun, only rocky material could withstand the heat when the solar ...

Of those objects that orbit the Sun directly, the largest eight are the planets (including Earth), with the remainder being significantly smaller objects, such as dwarf planets and small Solar ...

Discover our solar system with this diagram of the planets. Learn about the size, composition, and distance from the sun of each planet in our cosmic ...

Orbital diagram of our solar system. Memorization is not an important part of learning science, but some facts are so basic you should commit them to memory.

The chart above shows the Sun at the centre, surrounded by the solar system's innermost planets. Click and drag the chart to rotate the viewing ...

Our solar system also consists of moons, dwarf planets, asteroids, comets, and centaurs. The last three are referred to by the International ...

Rotate, zoom, and explore the planets in a real-time 3D solar system experience. UniverseMap's interactive viewer is designed for students, ...

NASA Solar System Exploration Our Galactic Neighborhood Solar System Planets Moons Asteroids, Comets & Meteors

Our solar system includes the Sun, eight planets, five officially named dwarf planets, hundreds of moons, and

thousands of asteroids and comets. Our solar system is ...
