

ADS-TEC Energy is developing battery-based platform solutions for the energy industry of the future. They are designed to optimize internal consumption and peak load capping, providing ...

From electrofuels and modular battery systems to thermal solutions - here, knowledge and demonstrations are created that enable Sweden's energy transition when storage becomes the key ...

The plant will be operated by Polar Capacity, a subsidiary of Polar Structre, together with Stockholm Exergi to fill electricity gaps in the greater Stockholm area that may arise due to the ...

Recently, HyperStrong has achieved remarkable milestones in the European energy storage market, with the successful commissioning of its frequency regulation project in Stockholm, ...

Scheduled for construction in the fall of 2025, the facility will consist of two of Monsson's signature 10 MWh battery units, optimized for cold-weather performance and reliable operation in ...

HyperStrong has announced major breakthroughs in the European market with two projects commissioned in Sweden and Germany. In May 2024, the company kicked off its first project ...

These milestones mark significant progress in HyperStrong's mission to support Europe's energy transition through advanced storage technologies and efficient project delivery.

Stockholm accelerates its green transition with a major energy storage tender. Discover project scope, bidding strategies, and how this initiative aligns with Sweden's 2045 carbon neutrality ...

As the world races toward decarbonization, Sweden's new energy storage technology is turning heads globally, blending Nordic pragmatism with breakthroughs that even Elon Musk might ...
