

Trinity Solar has the highest power generation rate

Does Trinity Solar do its own solar installation?

Although some solar energy companies outsource the installation process to third-party contractors, Trinity Solar handles its own installations. The company has a large team of employees that make up various sectors, including customer support, construction, electrical, and service teams.

Who is Trinity solar?

Trinity Solar offers solar power systems with or without battery backup. It caters to both homeowners and businesses and also provides maintenance and repair services. Trinity is also set to launch a roofing service in the near future. A typical installation experience with Trinity Solar would look as follows:

Why should you choose Trinity solar?

For over 30 years, Trinity Solar has provided custom solutions and outstanding service. Get a home solar power system with battery storage for maximum energy savings, and protection during an outage. Whether you just need a new roof or want to pair a new roof with solar, we can help.

How much does Trinity solar cost?

Unlike many young companies in the market, Trinity does not woo customers based on its pricing. Its system costs vary depending on certain factors but usually fall within the average solar pricing in the area -- in the U.S., that tends to be between \$19,980 and \$39,960 before the federal tax credit or between \$13,986 and \$27,972 after the credit.
