

Why is the stock suspended when wind can generate electricity

In the latest blow to the US offshore wind industry, the Trump administration announced Monday it is suspending the federal leases for all large offshore wind projects currently under...

The suspension, effective immediately, is the latest step by the administration to hobble offshore wind in its push against renewable energy sources. It comes two weeks after a federal judge struck down ...

WASHINGTON -- The Trump administration said Monday it is pausing leases for five large-scale offshore wind projects under construction along the East Coast due to what it said were ...

The large towers and moving blades on wind towers reflect electromagnetic radiation, which can cause interference for radar systems, according to the Department of Energy.

Dec 22 (Reuters) - The Trump administration suspended leases on Monday for five large offshore wind projects that are under construction off the U.S. East Coast over what it called national...

Investing -- Dominion Energy Inc (NYSE:D) stock tumbled 6% Monday after the Trump administration suspended five major offshore wind projects, including the company's Coastal Virginia...

Growing demand from artificial intelligence is contributing to higher electricity prices in the state. "Stopping CVOW for any length of time will threaten grid reliability for some of the...

Federal authorities have paused Vineyard Wind 1 and other East Coast offshore wind projects, effective immediately. Here's why.

On his first day in the Oval Office, President Donald Trump signed an executive order that attempts to slow the growth in the country's wind generation capacity.

President Trump's executive order halting wind energy projects has ignited backlash from environmental groups and industry stakeholders, threatening the future of renewable energy in the US.
